GLASS BALUSTRADES AND SYSTEMS

VT2 Spigots

Rizzare's hardware range is exclusively made from 2205 Duplex stainless steel.

Our VT2 Glass Fixing Systems are designed to be quick and easy to install, saving valuable time and cost with installation. PS1 and PS3s can be obtained for each system to make the consent process simple from start to finish.

We offer a vast range of supplementary hardware including hinges, latches, support clamps, handrail & connectors, to complete the full installation of your pool fence or balustrade.

VT2 TOP FIX HIDDEN

Our VT2 Top Fix Hidden spigot is top mount with hidden fixing points in the base for a seamless and stylish finish.

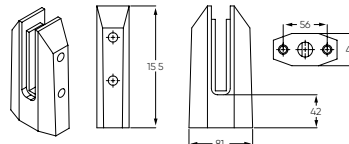

2205 DUPLEX Stainless Steel

Higher corrosion resistance and double the strength than 316 steel

Tilt lock system to suit 12mm–17.52mm glass

Threaded rods available to suit (sold separately)

Powdercoating available to specific colours

POLISHED,
SATIN & BLACK
FINISHES

VT2 EDGE FIX

Our VT2 Edge Fix spigot is side mounting with cover plates to conceal fixing points. Provides space saving solutions for narrow decks and walkways. Helps solve issues where water proof membranes are an issue for top mounted models.

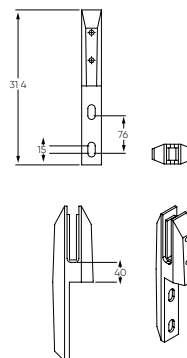

2205 DUPLEX Stainless Steel

Higher corrosion resistance and double the strength than 316 steel

Tilt lock system to suit 12mm–17.52mm glass

Concrete Fixing and Timber Fixing kits available to suit (sold separately)

Powdercoating available to specific colours

POLISHED
& SATIN

VT2 FACE FIX

Our VT2 Face Fix spigot is side mounting. Side or Facia mounting will never be the same again with this unique and extremely adaptable mounting system. These sleek unobtrusive fittings sit below the inside vision to provide the ultimate answer to frameless glass railings, while allowing leaves, dirt and water to escape.

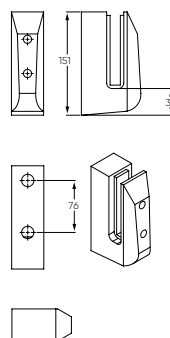

2205 DUPLEX Stainless Steel

Higher corrosion resistance and double the strength than 316 steel

Tilt lock system to suit 12mm–17.52mm glass
